Summary

Computer Science & Data Science undergraduate and Full-Stack Developer with hands-on experience building real-time, full-stack applications using React, Next.js, TypeScript, Node.js, Express.js, PostgreSQL, MongoDB, and WebSockets. Strong foundation in Data Structures & Algorithms (DSA), 150+ problems solved on LeetCode/GeeksforGeeks. Experienced designing REST APIs, responsive frontends, and event-driven real-time backend systems.

Skills

Languages: C++, JavaScript, TypeScript, SQL
Frontend: React.js, Next.js, Tailwind CSS, Responsive Web Design
Backend: Node.js, Express.js, REST API Design
Real-Time Communication: WebSockets, Event-Driven Architecture
Databases & ORM: PostgreSQL, MongoDB, Prisma
Core CS: Data Structures & Algorithms (DSA)
Version Control: Git, GitHub

Projects

DevFlows — Unified Real-Time Platform

June 2026 – August 2026

Next.js, Node.js, TypeScript, WebSockets, PostgreSQL, MongoDB, Prisma

- Architected a single shared WebSocket connection layer using a Singleton pattern, powering three integrated applications — real-time chat, collaborative canvas, and a knowledge-management workspace — from one persistent connection, eliminating duplicate connections and listeners across modules.

Chat System

- Built real-time one-to-one and group messaging with persistent message history, conversation management, unread message tracking, typing indicators, and online presence.

Collaborative Canvas

- Built a modular HTML5 Canvas rendering engine with a tool-based architecture supporting selection, rectangles, circles, lines, arrows, freehand drawing, text, and shape movement with persistent canvas state, plus server-side authorization and per-user shape ownership via REST API endpoints.

Second Brain

- Built a knowledge-management module for saving and organizing YouTube videos, X/Twitter posts, GitHub repositories, and web resources, with automatic URL detection/content classification and optimistic UI updates for creation, deletion, filtering, and search.

Achievements

- Solved 150+ Data Structures & Algorithms (DSA) problems across LeetCode and GeeksforGeeks.
- Earned the LeetCode 50 Problems Badge for consistent problem-solving practice.
- Achieved 92 percentile in JEE Main through focused 3-month preparation.

Education

B.Tech — Computer Science & Data Science

2023 – 2027

Techno Main Salt Lake, Kolkata

Class XII — Science (CBSE)

2022

Prakritik School, Patna — Score: 91%
